

Conflict Minerals Policy

As a global distributor of electronics components, traceability of the supply chain is paramount to Component Dynamics. This extends to the Dodd-Frank Wall Street Reform and Consumer Protection act which was implemented on July 21st, 2010.

As a distributor of electronic components and not a manufacturer, any effort on our part to support the Dodd-Frank initiative is wholly dependent on the manufacturers whose product we supply. As a purchaser we do not knowingly procure any parts containing conflict minerals from the covered countries.

Component Dynamics wholeheartedly supports and recognizes our responsibility not to support or contribute to the violence and human rights violations associated with the mining of certain materials and is fully committed to working with our customers to create a supply chain free of violence and human rights violations.
